

DONG Energy's core values
 are about being result-oriented,
 responsible and responsive

We listen,
 we think,
 we act.

Result-oriented, responsible and responsive. These are DONG Energy's core values.
 They are carefully selected because they are values which we, as a business, need to uphold if we are to achieve our ambitious goals. We are working with the lifeblood of society – energy supply. Each employee plays an important role in the vast mechanism that makes the wheels go round, ensuring that society stays on track.

We are seeking ambitious people
 wanting a change of air.
 Literally.

Visit our [website](#) if you are interested in working for a large and professionally diverse company that provides room for developing your capabilities together with other competent people.

We are always in need of ambitious people who want to work in a business with a clear vision to contribute to solving one of the world's most important challenges.

Providing reliable energy without CO₂.

We are always in need of ambitious people who want to work in a business with a clear vision:
 Providing reliable energy without CO₂

MOVING ENERGY
FORWARD
 WITH AMBITIOUS PEOPLE

Ambitious people

DONG
 energy

Ambitious people

Moving energy forward – with ambitious people. We switch it on and switch it off. We use it 24 hours a day, 365 days a year, and in ever greater amounts.

Energy is essential to us as people, and the lifeblood of our society. However, our energy consumption is also the cause of climate change and CO₂ emissions. So not only do we need to produce more energy, we also need to supply cleaner energy.

DONG Energy has therefore drawn up a far-sighted vision: Providing reliable energy without CO₂. This is an ambitious goal and it demands ambitious people with whom we can realize this vision.

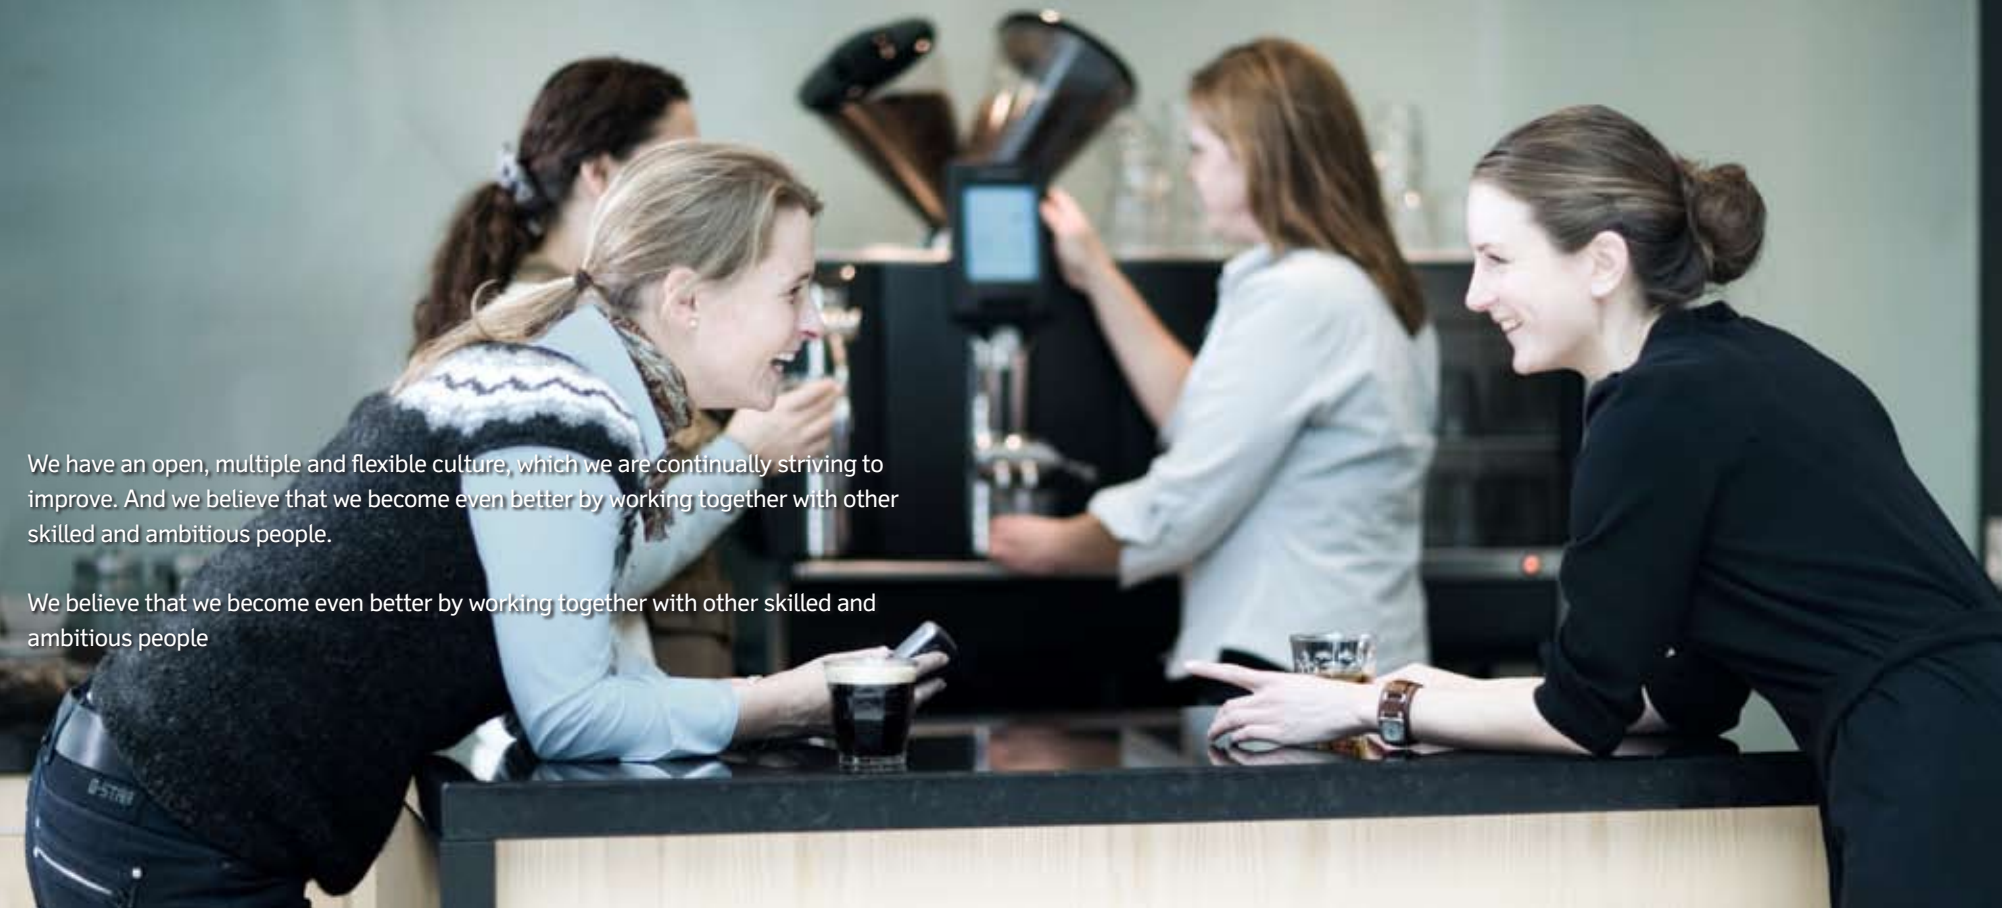

**We will provide
reliable energy
without CO₂**

Values at work

DONG Energy is one of the biggest energy groups in Scandinavia with offices and production plants located throughout northern Europe. From our base in Denmark to colleagues in Norway, Germany, the Netherlands, Sweden and the UK. From wind farms and CHP plants to drilling rigs and production platforms in the North Sea.

The essence of the team spirit lies in our ambitions, philosophy, professional diversity and our common values. And, of course, the fact that we enjoy working together and are passionate about what we do.

We have an open, multiple and flexible culture, which we are continually striving to improve. And we believe that we become even better by working together with other skilled and ambitious people.

We believe that we become even better by working together with other skilled and ambitious people
