

## Top 10 rating

In "Ingeniørens" yearly rating we leaped from 21. to number 10. We are proud of that rating and the results of the survey is a proof that we have become better at communicating the reality about our place of work.

The fact that we have incredibly competent and ambitious colleagues, that we take our responsibility for the environment seriously and that the career prospects and the professional challenges are many and varied in DONG Energy is something we have known all along - now we have managed to tell it to the people outside our company
